

Mt Hutt College

As a student who has attended Mt Hutt College for almost two years now, I believe that I am capable of describing this amazing school to you. There are many things you can do at this school, some of which I haven't even tried yet. I'll be telling you what I know, and I assure you, what I know is awesome.

First thing you need to know about Mt Hutt is the classes and subjects. When you start at year 7 and 8, you have five periods, one for each subject you'll attend and each is one hour long. You have 2 'primary' subjects each day, that is CCM and maths. You have CCM twice a day, so that makes 3 periods. But the two other periods are what I call 'special' periods, that you have not everyday, but most. For example, Monday could have 3 primary periods, then Health and P.E. On Wednesday, you have the primary periods, then art and science. Sometimes though, you may get lucky. Every now and then you may have only one CCM class, leaving space for third special period that day. There's plenty more to say about this topic, but It'd be best if I moved on.

The next topic is staff. Mt Hutt has a large campus, so a lot of classes can easily fit in the given area. That also leaves many vacancies for teachers fill in and share knowledge. One of these teachers is Ms Richards, who is the year 7 and 8 Dean and teaches CCM and maths to both years. Even though she is strict, she can marshal even the most unorthodox and undisciplined class ever. Take that as a warning, because if you're in her class, you want to be on your best behavior or she'll send you to the office. But really though, she isn't that bad, just be good and you will be rewarded. Another teacher I'd like to tell you about is Mrs Newport. She also is an excellent teacher, but one with a unique style. She often make jokes, small cracks that can set off the whole class. As she believes, people remember funny, joyous things, so she makes her pupils remember not only her jokes, but sometimes the information she has taught with it. Another set of employees are the caretakers and cleaners. I'll admit to not knowing their names but what they do for this school is marvelous. Without them the students would be wading through and old gum after a year. Make sure to thank them for that.

One of the most important features of a school is lunch, and I know you'd agree. Mt Hutt has two lunch breaks in the day, called 1st lunch and 2nd lunch. 1st lunch after 2nd period and 2nd after 4th period. You'd want to bring to school at least 2 things to eat for each lunch, but if there isn't anything at home, you could buy stuff from the school cafeteria. Bring 5 bucks and you're set.

All in all, Mt Hutt College is an excellent place of education. From the classes to the teachers and then to lunch, this is a high quality school and you can definitely start to chase your dreams by going to this school. I'd highly recommend coming here, and I'll tell you now, it's worth the money.
