

# JUMBLED

By Josh Walker-7RO-2020

He had only been away for a short time.

Upon returning to his home-town, Jake found that it was no longer there: something terrible had happened. After eventually locating his house (it had moved several hundred miles from its previous location) Jake stood on top of it and surveyed the calamitous scene around him. What could have caused such a thing to happen?

Let me give you a bit of background on this town...

Eons ago, ancient creatures entered this world, these creatures were called "Inhumans". The Inhumans are powerful creatures that possess powers called "Quirks". Each Inhuman has a unique quirk, no quirk is the same. Decades later, a sanctuary was created to separate the Inhumans from us, it was called "Quirkington".

Then, a young boy called "Jake" entered the world. Jake had a bizarre quirk. He had all the quirks!!! Jake possessed the power of a million quirks but didn't know how to use many. Everyone in the Quirkington feared Jake because they knew that he was much more powerful. Everyone in Quirkington secretly despises one another. Occasionally, people will break into a fight, so Jake stops them. So everyone behaves.

Then Jake left for a trip, he had just learned an invisibility quirk and decided to go out and see the world. So when he left, Quirkington had a full-on civil war! "GET YOUR LEAVES OUT OF MY YARD!!!" Hooted Mr. Degree, who had the quirk to summon flames. "LET ME SPEAK TO YOUR MANAGER!!!" Squealed Ms. Karen, who was able to fail in every way possible (Not sure if this was a quirk or not, she just seemed to be there). "YOUR DOG KEEPS CRAPPING ON MY LAWN!!!", wailed Mr. Vine, who could control plants with his

mind. Finally, Mr.Sumo, a guy who's the weight of 3 Eiffel Towers, slammed his foot on the ground, causing the earth to shake.

As the earth's plates rose, the town crumbled together. Ms.Cloak, who could teleport herself and others, sucked everyone up in a portal, and they moved far away from what is now a massive ball of houses(and the lights were still on because they had solar-powered houses).
