

WORLD WAR 2

People went to WW2 to fight for free doom with our Allies which was the British Empire that was the U.S.A, Russia, Union States and others. To try to Defeat the Germans run by Hitler. Hitler started the war by attacking south of Poland and broke a rule that he was not going to try to takeover Russia and then Russia attacked them. Hitler killed Jewish people because he didn't like them and then he got his army to go on a rampage to kill them, that also started the war. The 28th Maori Battalion joined to help them with the epic battle to win. It started and finished in 1939-1945 and it was in Europe. They battled on land and sea as well as in the air.

The Government of New Zealand got forced to draft people's names out of a box and they had to go to jail or be a paramedic if they didn't want to hold a gun. In New Zealand they had black outs so the Japanese couldn't see NZ and bomb us. They put people from Germany and Japan in jail because they might be a spy. In the trenches there were rats and lice, people that had lice on them had to burn them off with a lighter. Soldiers and drafted people would go to the front line to fight but those who didn't listen would go to the front line as well.

When the Russians attacked the Germans Hitler shot himself and his wife, kid and no one found his body and that ended the war. But the Japanese still went on bombing Pearl Harbour in the U.S.A. U.S.A fought back and dropped 2 atom bombs in the same place in Japan and Japan stop the war with the U.S.A. Over 50,000 people died in the war and that was soldiers and people. Over 2000 Maori Battalion went to the war and they got sent home and they were angry that they had to leave the war to go home and happy at the same time. Hitler only like people that had blue eyes and blond hair.
