

WORLD WAR II WRITING

I have learnt that there are Allied powers and Axis powers Allied powers are the U.S.A, France, Britain, New Zealand, Australia, Russia, Canada and more. The Axis powers are Germany, Japan and Italy. I never knew that if you were a conscientious objector you could work on farms or make clothes and all that other war related jobs.

You had to be 18-46 years old to be in the war. Rats caused a big problem with diseases in the trenches. The enemy would throw dead bodies out the plane to keep themselves safe. I had already heard about Adolf Hitler but not what he had done. Hitler and his gang killed people because of their beliefs. Also the Japanese bombed Pearl Harbour in the U.S.A. and there were two bombings.

In Japan a lot of Japanese people died. There is the Navy, Air force and the Army. I knew Hitler wasn't born in Germany he is born in Australia. There was not one tank in WW1 but heaps in WWII. The tanks were the main cause of WWII because Germans invaded Poland.

I did not know that there was a 28th Maori battalion. The woman did not go to war, but they did other things like cooking, shearing, milking, bullet work, getting food and all the men's usual farming jobs. There was a day when children dressed up in soldier's outfits and carried the guns over their shoulders and marched around together. Also they sang a song called 'God Save the King' at schools, in town and churches.

All of the war groups had a mascot. They could be a dog, donkey, chicken, monkey or a bird. Some children played war games when the war was on and if you were a German you got punished either with the ruler or singing a respectful song to the school or the Mayor. WWII went from 1939 to 1945.
